After recent mixtape *88*, Actress reveals new album *Karma & Desire*.

Karma & Desire includes guest collaborations from Sampha, Zsela and Aura T-09 and more. It's "a romantic tragedy set between the heavens and the underworld" says Actress (Darren J. Cunningham) "the same sort of things that I like to talk about – love, death, technology, the questioning of one's being." The presence of human voices take the questing artist into new territory.

Flute-like melodies contributed by Canadian organist and instrument builder Kara-Lis Coverdale.
