The World that IS and IS NOT is the enigmatic title of My Cat Is An Alien's new "concept album."

The World that IS and IS NOT is the existential reflection of MCIAA on 2020: a pandemic scenario where everything seems to vanish into the Void.

Explicitly dedicating this new studio album to the dark ages we're all living through, more than ever MCIAA stand strong to claim that Music and Art are the primary and true "cure" for spiritual disquiet and moral despair.

Thus the music herein is highly spiritual, sensitive, soft and warm... surprisingly lyrical. Its celestial melodies cannot but induce to transcendental meditations. MCIAA offer a one-way ticket to still unexplored otherworldly territories and better realms of space-time consciousness.

An inborn wisdom that Roberto Opalio resumes in his poem handwritten on the album insert: "In the endless vortex of No-Thing / [...] I still do believe / Art can save my Spiritual Noise soul."

Produced by MCIAA in multi-dimensional, fully dynamics-frequency spectrum "STEREOALIEN FIDELITY."

Released on the renewed Opax Private Press imprint in a first, ultra-limited and hand-numbered edition of 100 Silver Color Vinyl LPs, housed in full-color printed jacket with folded cover/insert on Italian fine art linen textured 250g cardboard. Includes a 70x50 cm Poster. Cover and poster painting by Roberto Opalio. Design by MCIAA.
